

5/6/70

Dear Phil,

It is not often I have good news to report, so I hasten to acknowledge your note of the third and both useful clippings and to tell it.

On the clippings, Most of what Sprague is up to (with utmost sincerity and sublimest ignorance) is the kind of things expressed in the computerers' phrase, GIGO- garbage in, garbage out. I started him on the pictures, and he had done a first-rate job of collecting them, but he sees conspiracies as the desert victim sees oases. However, I want to keep up with it and him very much. And the UPI story on LBJ had what no other did and thus helps for the future.

Save for the debts and assorted other problems, this could qualify as "peaceful Kingdom" - except for the muskrats who have taken over and thus jeopardized the pond. Try it.

The news is that I have just established at least several precedents, the magnitude of which even I could not imagine if he had the merest apology for a responsible and honest press. I have won the first case under the Freedom of Information Act. I want no publicity I cannot control for reason I haven't time to go into now. And I do not expect Colista to proclaim that having merely seen David he has keeled over. But rather than face me, armed as they know I am (having displayed my arms), they are capitulating and giving me that suppressed and confiscated James Earl Ray evidence they denied having-in writing!

Let me give you a few of the translations, and those briefly.

This is Richard Kleindienst proclaiming, in court, "I, Richard Kleindienst, am a liar".

It is the Department of Justice acknowledging they openly violate the law and are contemptuous of it. You know, "Law-and-order" Mitchell who ran the "Law-and-Order" Nixon campaign.

It is acknowledgement that James Earl Ray was denied a legal right essential to his defense.

What the evidence I am to get says I know, pretty much, and it is all set out, in advance, in the completed book. It was say Ray was framed. Guilty or innocent, good or bad, framed nonetheless, and by government.

I was popped when the news came by phone from my lawyer who has it only by phone. How fast that adrenalin factory works! Feel great!

The impossible does sometimes take a little longer!

Thanks and best regards,
